Club Ranking

2021 Scotiabank Concacaf Champions League

2021 SCCL RANKING

How the club ranking is calculated

The Scotiabank Concacaf Champions League Club Ranking is based on the on-field performance of the various clubs of the same country that have occupied a qualifying slot in the previous five editions of the competition. The ranking does not rank individual clubs.

Calculating formula

To determine the total points awarded to a countries slot(s) (i.e. CRC 1) in any single edition of the competition, Concacaf utilizes the following formula:

Total Points	=	3 Points per win	+	1 Point per tie	+	1 Point per stage advanced	+	4 Points for Participating	+	2 Points for winning the competition
